자기소개서

Personal statement / 自我介绍

1. 자기소개에 도움이 될 만한 사항을 구체적으로 쓰십시오(가정환경, 성장과정, 학교 및 지역환경 등).

Write your personal information that you want considered as part of your admission application. You might include exceptional hardships, challenges, or opportunities that have shaped or impacted your life, your personal and educational environment.

Hello, I am Shamim Hasan, the youngest and most talented son of the family. I grew up in the love and affection of everyone.

I was born and brought up in an educated family with beloved siblings. My father is a businessman who is retired now, and my elder brother has been replaced in his position and is taking care of my family and my studies and overall expenses.

I started primary school at an early age. Since then, I fall in love with reading books. I was always obedient to my teachers. I used to participate in all kinds of academic activities that helped me to occupy a soft place in my teacher's and parents' heart. No one ever found me involved in the antisocial activity.

I did not get proper materials due to studying in rural schools and even didn't have the opportunity to access skilled teachers, modern technologies, and the internet which never stopped me from learning. By God's grace, everyone's support, and my dedication to study have helped me to get passed primary school.

After passing primary school. I got admitted into middle school. I got an opportunity to enroll in a course called elementary science that immensely developed my interest in science and technology. From then, I became obsessed with everything related to science. I noticed the importance and presence of science in every activity. When I got to SSC (Secondary School Certificate) level, I decided to study science and started studying science.

At the higher secondary level, I study chemistry, physics, higher mathematics, biology, and general science. Since then my knowledge about science continues to grow in a much wider range. Thus, I pass the high school level with very good results.

My dream is to become a computer engineer. I love the computer, and I am sound at how a computer works and how to handle it. I am good at programming. I just fall in love with computers. After competing for my Korean language course, I will directly apply for my undergraduate in computer science and engineering.

I believe I can achieve my desired goal after joining Kyngmin University.

**2. 우리 대학에 지원한 학과를 희망하는 이유, 입학 후 자기계발 및 학업 계획, 졸업 후의 자신의
진로계획에 대해 쓰십시오.**

What motivated you to apply to Kyungmin University? Explain why you are applying to the particular school of study (department) and what is your plan of study and self-development after admission, your career goal after graduation.

It is an immense pleasure to write a few words about me and my self-development and my goal after graduation after graduation from Kyungmin University.

I am a Bangladeshi. There are many universities in our country. However, I am interested to take admission at Kyungmin University because it offers very high-quality education to the students.

Kyungmin University is a famous university that attracts talents all over the world.

Kyungmin University has wonderful educational infrastructures, a beautiful campus, excellent learning facilities, a friendly environment, and modern facilities, such as a computer lab, sports, gym, and library that have attracted me to apply to this university. It is a very suitable university for enhancing and nourishing latent talents and intelligence.

Moreover, a degree from a Korean university will add an extra dimension to my education life that will me to get a better job in the future. I will be able to learn here everything hand-in-hand which is so important in professional life.

Kyungmin University offers better facilities compared to our local university at a minimal cost which is really inspiring. The quality education and teaching facilities are much better than ours which will keep me one step ahead of our local graduates.

I will study hard and soul to improve my Korean language school during studying at this university.

After completing my Korean language course, I will join the Department of Computer Science for my undergraduate to make my dream come true.

3. 한국어 능력 성적과 어학 관련 교육을 받은 경험을 자세하게 기술하세요.

Please briefly state your level of Korean language proficiency and your academic and extracurricular activities

I know Korea just a few words. But I have learned them from Korean Dramas and K-pop. Since I decided to enroll at Kyungmin University, I have been paying close attention to the Korean language. I continue to try to learn Korean with the help of YouTube and various helpful books. Knowing the Korean language will make it easier for me to communicate and study. That's why I concentrate on learning Korean.

I like to help people, gardening and playing football. I like to play football in the afternoon. Besides, I love reading different types of books. Apart from that, I am associated with various social organizations.
